

Eric,

I picked this note up at the recent P.C.D.A show. I have a \$5 in my collection and am in need of other denominations. Any interest?

I would still like to visit with you sometime. Give me a call

I am really delighted that you are about 75% along on preparing the Missouri book. I will gladly help on any phase. I believe I have a lot of ideas and data which could be helpful.

As to your specific inquiries:

1. I know of no copy of a State of Missouri auditor's warrant of the 1820-1829 period. The \$6 which was redeemed although altered to \$60 must have been issued prior to the Dec. 22, 1824 act as that prevented the issue of \$6 warrants (only \$3, \$5 & \$20)
2. I know nothing about the Bank of St. Louis \$50 note of 1817 pictured in the files of the Mo State Bank Commission.
3. The \$100 proof of the branch bank form of the Bank of the State of Missouri is new to me. It is Plate B. There must have been a Plate A also of the \$100.
4. I am sure you are going to list plate letters on all notes which have them.
5. You asked about Rula's token listing but did not specify the item. I assume it is about the Post Office identification Tokens. I own about 4 of them. Information is in my files and I will try to find it. I assume you will list them. Perhaps Mike Pfefferkorn has data.
6. Did you ever locate the 1857 Central Bank (?) listed and illustrated in Hazby under Missouri?
7. I have a Bank of St. Louis 50¢ (first bank) which you said was missing in the Western Reserve set. You have one I believe.
8. I ^{think I} told you I did not have a \$50 Bank of Missouri but I do have one.
9. Some Ste Genevieve branch Bank of Mo notes have plate letters just as the parent bank did.
10. What denominations of the Confederate Missouri 1/1/1862 issue are overdated with a "4"? This should be included in your book. The ink inscription "Int pd to Oct. 1, 1864" is ^{some of} on them. Do you have the writeup of this incursion by Confederate forces back into Missouri during that period?
